

Ygziir

Ygziir was a [planet](#) in the [Yuuzhan Vong galaxy](#) that was home to a [domain](#) allied to [Warmaster Steng](#), possibly his own. It was [destroyed](#) in the [Cremlevian War](#), together with its [moon](#).

The rival Warmaster [Yo'gand's domain](#) used a large [dovin basal](#) to pull the moon into the planet; it would later become known as the [Yo'gand's Core](#) tactic. Steng's domain either surrendered or was wiped out. Considering the protocols of the [Yuuzhan Vong](#), the latter is the more likely.
